DETAILED ACTION

1. This office action is in response to the amendment filed on December 15, 2006, in which claims 1-5, 18-21 and 38 are pending for further examination.

Response to Arguments

2. Applicant's arguments with respect to claims 1-5, 18-21 and 38 have been considered but are moot in view of the new ground(s) of rejection necessitated by amendment.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

4. Claims 1-5, 18-21 and 38 are rejected under 35 U.S.C. 102(e) as being anticipated by Martin US Patent No. 6,704,743.

Art Unit: 2162

As to claim 2, discloses the claimed “wherein said Extension is attached to said Item”(the object is part of the child entity, col.25, lines 39-46).

As to claim 3, discloses the claimed “wherein said Extension cannot exist independently from said Item, such that if said Item ceases to exist, said Extension also ceases to exist” (the child entity branches to the parent entity, if the parent entity does not exist the child entity would not be hold, col. 25, lines 41-57).

As to claim 4, discloses the claimed “wherein said Item is extended by a plurality of Extensions” (the object entity can relate to multiple child entities, col.23, lines 54-60, new child entities).

As to claim 5 discloses the claimed “wherein said plurality of Extensions is used to model overlapping type instances” (col.23, lines 53-60; col.25, lines 26-46, core schema).

Art Unit: 2162

As to claims 18-21:

Claims 18-21 are system for performing the method of claims 1-5 above. They are, therefore, rejected under the same rationale.

As to claim 38:

Claim 38 is a computer readable medium comprising computer readable instructions for performing the method of claim 1 above. It is, therefore, rejected under the same rationale.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
